

UNITED STATES STRATEGIC COMMAND

Biography

Mr. Chad M. Stevenson **Director, NC3 Enterprise Center, USSTRATCOM**

Mr. Chad Stevenson serves as Director of the Nuclear Command, Control, and Communications (NC3) Enterprise Center. In this capacity, he oversees NC3 operations, maintains enterprise-wide visibility, assesses comprehensive operational and technical risk, and, with NC3 stakeholder's partnership, develops and advocates future capabilities, architectures, and risk management options.

Prior to this assignment, Mr. Stevenson, served as Director of the National Leadership Command Capability Management office for the Deputy Chief Information Officer for Command, Control, and Communications (C3), Office of the Secretary of Defense, Chief Information Officer. He provided technical expertise, oversight and broad guidance on policy, programmatic and technical issues relating to DoD's senior leadership communications, continuity of operations/continuity of government communications, alternate timing capabilities, undersea cables and was the DoD's representative to the interagency's national security/emergency preparedness communication group.

Mr. Stevenson retired from the USAF after 26 years of service in various operational and staff positions.
